Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The amendment dated 8/21/03 has been entered.

Claims 4904-4927 and 5396-5423 are pending.

1. The terminal disclaimer filed on 8/18/03 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of patents granting from applications 09/841,060 and 09/841,635 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 4904-4927 and 5396-5423 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the claims of copending Application No. 09/841,290; 09/841,295; and 09/841,501. Although the conflicting claims are not identical, they are not patentably distinct from each other because the differences are entirely obvious.

Art Unit: 3673

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

With regards to application 09/841,501 claim 4904 of the instant application generally corresponds to claim 4901; with the exception of the heating and removing steps, which are claimed in 4907 of the instant application.

With regards to 09/841,290 and 09/841,295; claim 4904 in the instant application generally corresponds to claim 4689 of 09/841,290 and claim 4685 of 09/841,295. It is noted that the copending applications do not call for the "allowing to cool"; however this is inherent or obvious to one of ordinary skill in the art, since the copending applications call for storing CO₂ in a "spent" portion of the formation. One of ordinary skill in the art would understand "spent" to mean a portion of the formation on which the claimed heating process has been carried out, and subsequently cooled.
